

1. Joining the RCN Journal Club(s)

Once you've set up a free account on [Benty-Fields](#), you can navigate to the [Join Journal Club](#) page and use the drop-down box to search for 'EPRV' which will bring up the RCN journal club. You can then request to join, which will send a request email to Jenn and Heather, and after they hit approve you'll be able to vote on papers, volunteer to lead discussion, and get updates!

2. Voting for Recent Papers

Visit the [Papers](#) page on Benty-Fields which will list arXiv papers by day. Click on a specific date to see the entries matching your areas of interest (first identified when you created your account)

Within each day you'll see all of the arXiv entries that fall within your arXiv areas of interest, and you can click the 'Vote' button on any that you think would be a good fit for the EPRV journal club.

Papers for Monday 23 February 2026

Previous (Friday 20 February 2026)
☐ Show all abstracts

1. The Dispersed Matter Planet Project Sample -- Detection limits, Occurrence Rates and New Planets
Matthew R. Standing, John R. Barnes, Carole A. Haswell, Adam T. Stevenson, João P. Faria, Erwan Quintin, Zachary O. B. Ross, Luca Fossati et al.
[Show abstract](#) | [Show figures](#) | [Show BibTeX](#) | [Show discussion](#) | [View PDF](#) | 2602.18207v1

[+ Vote](#) [Add to Library](#) [Recommend](#)

2. Euclid: An automated system to match Rubin transient alerts to Euclid observations
C. Duffy, I. M. Hook, C. M. Gutierrez, K. Paterson, V. Petrecca, T. J. Moriya, F. Poidevin, R. Kotak et al.
[Show abstract](#) | [Show figures](#) | [Show BibTeX](#) | [Show discussion](#) | [View PDF](#) | 2602.18173v1

[+ Vote](#) [Add to Library](#) [Recommend](#)

3. Finding Older Papers

Use the “[Benty-Search](#)” button in the top navigation bar to bring up a search interface that will look through all of arXiv for papers based on the authors, the year, the DOI, or specific keywords. Once you find the specific paper you're looking for, the voting process is the same as for the daily paper results.

4. Looking at the Journal Club's paper suggestions: Voting & volunteering to lead a paper discussion

If you click on the “[Journal Club](#)” button in the top navigation bar it will take you to the organizing page for the clubs you belong to and you can see what other papers folks have voted for (and add your own votes) and you’ll also be able to Volunteer to lead the discussion on any of the papers that have been suggested.

The screenshot shows a web browser at benty-fields.com/manage_journal. The navigation bar includes links for Papers, Journal Club (highlighted with a pink box), Benty-search, Jobs, Seminars, and Support!. A sidebar on the left lists options: Next Journal Club, My Votes, Members, Join Journal Club, and Create Journal Club. The main content area is titled "EPRV RCN Journal Club" and displays meeting details: "Next meeting: Thursday, October 08, 08:00 AM" with an "Options" button, "Location: https://caltech.zoom.us/j/88649390667", "Organizer(s): Jennifer Burt, Heather Cegla", and "Most active member: Heather Cegla (3 votes)". Below this is a section titled "Votes for the next meeting" containing three paper suggestions. Each suggestion includes the total votes, title, author, and discussion leader, along with "+ Vote" and "Volunteer" buttons. The first suggestion's "Volunteer" button is highlighted with a pink box. The second and third suggestions also have "Volunteer" buttons.
